

## CAREERS AT YATZAR CREATIONS

**Position:** Student Intern

**Duration:** 4-6 months

**Working Hours:** 30-40hrs per week (dedicated)

<b>Job Description</b>	This internship is tailored for Engineering/Architecture students who are in their final term of Undergraduate/Postgraduate studies and aspiring to apply their academic knowledge within a professional setting, with a clear path to a full-time position upon successful completion.
	Intern will collaborate with our expert design and engineering and management teams to craft and enhance our digital delivery solutions.
<b>Roles and Responsibilities</b>	Generate and curate high-quality digital deliveries for architectural and various engineering disciplines.
	Collaborate and coordinate with software development and multi-disciplinary BIM teams.
	Involve in training sessions to continuously improve the skill set.
	Participate in review and retrospective meetings.
<b>Technical skills</b>	Learn and up-skill as a team.
	Working knowledge of Revit/Synchro/Bixel Manager or equivalent 3D Modelling/Construction Planning/Cost Estimation tools.
	Knowledge of computer programming (preferable).
<b>Experience</b>	Verbal and written communication, presentable for discussion and documentation.
	Prioritise duties and work effectively to meet deadlines.
	Responsible, self-assured, motivated and take responsibility
	Work independently and as part of an effective team.
	Build good understanding at all levels, internally and externally.
	Listen and learn from all members of the team.
	Resilient to cope with challenging and dynamic tasks.
	Manage sensitive and sometimes confidential information.
Continuously develop interpersonal and professional skills.	
<b>We offer</b>	We offer competitive pay and benefits and the development resources you need to advance your career.
	As an Equal Opportunity Employer, we believe in each person's potential, and we'll help you reach yours.
	We will encourage you to grow and develop your career with us through our technical and professional development programs and diverse career opportunities.
	When you join us, you will connect and collaborate with a global network of experts - planners, designers, engineers, developers, scientists, consultants, program and construction managers - leading a grateful living experience and the future therein.
